

DHANUSH M

AI Engineer | Generative AI & Agentic AI Developer

+91 9123514328 • arceusdhanush05@gmail.com • Chennai, India • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

AI Engineer specializing in Generative AI, LLM applications, and Agentic AI systems, with hands-on experience building production-ready RAG pipelines and full-stack AI-powered SaaS applications. Skilled in leveraging Google Gemini, LangChain, and vector embeddings alongside React, TypeScript, Node.js, Express.js, and MongoDB to ship scalable, end-to-end AI products. Combines strong machine learning fundamentals with practical agentic system design, prompt engineering, and clean software architecture to deliver reliable, user-focused applications.

TECHNICAL SKILLS

Generative AI: LLMs, Agentic AI, Google Gemini API, Prompt Engineering, RAG, LangChain, ChromaDB, Vector Embeddings

Machine Learning: Python, Scikit-learn, Pandas, NumPy, Data Preprocessing, Feature Engineering, Model Evaluation, Recommendation Systems

Frontend: React, TypeScript, Tailwind CSS, Zustand, HTML, CSS, Vite

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Multer

Database: MongoDB, Firebase, MySQL

Tools: Git, GitHub, Docker, Streamlit, Postman

PROFESSIONAL EXPERIENCE

MERN Stack Web Developer Intern — CODTECH IT Solutions Pvt. Ltd.

Feb 2025 – Apr 2025

- Engineered scalable RESTful APIs with Node.js, Express.js, and MongoDB, implementing JWT authentication to secure endpoints and protect user data.
- Built responsive, production-style interfaces in React.js with clean component architecture and consistent cross-device behavior.
- Integrated Socket.io for real-time, bidirectional communication in a live chat feature, supporting concurrent multi-user sessions.
- Collaborated within a 5-member Agile/Scrum team, contributing to sprint reviews and code optimization to ship scalable full-stack applications on schedule.

PROJECTS

AI Resume Analyzer **Featured** — React, TypeScript, Node.js, Express.js, MongoDB, Google Gemini, JWT, Tailwind CSS

[GitHub](#) | [Live Demo](#)

- Built a production-ready, full-stack AI Resume Analyzer with secure JWT authentication and PDF/DOCX resume upload and parsing.
- Integrated Google Gemini to power AI-driven resume evaluation, generating ATS compatibility scores, JD-match analysis, and targeted rewrite suggestions.
- Designed a scalable REST API architecture (routes → controllers → services → providers) across the MERN stack for clean, maintainable code.
- Optimized frontend performance through route-level code splitting, deferred library loading, and memoization, cutting page load times significantly.

Persona-Adaptive Customer Support Agent — Python, Google Gemini 2.0 Flash, LangChain, ChromaDB, RAG

[GitHub](#) | [Live Demo](#)

- Built an Agentic AI customer support system that classifies user personas and adapts response tone and depth in real time.
- Implemented Retrieval-Augmented Generation (RAG) with ChromaDB and Gemini embeddings to ground responses in accurate knowledge-base content.
- Designed a confidence-scoring mechanism with structured human escalation for low-confidence or complex queries.

Librix — Library Management System — React, Node.js, Express.js, MongoDB, JWT

[GitHub](#) | [Live Demo](#)

- Developed a full-stack MERN library management platform with role-based authentication for admins and members via JWT.
- Implemented a complete book borrow/return workflow with real-time status tracking across MongoDB collections and REST APIs.
- Built responsive admin and member dashboards in React for inventory, transactions, and user activity management.

The Super App — React, Zustand, REST APIs, Tailwind CSS

[GitHub](#) | [Live Demo](#)

- Built a multi-feature React dashboard integrating weather, news, and movie recommendation modules via third-party REST APIs.
- Managed application state with Zustand and delivered a clean, responsive UI styled with Tailwind CSS.

EDUCATION

B.Sc. Computer Science — University of Madras

Aug 2022 – May 2025

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, OOP, Web Technologies, Software Engineering

CERTIFICATIONS

- Professional Certification Program in AI & Data Science — Intellipaat, iHub DivyaSampark, IIT Roorkee (Coursework, Assignments, Capstone Project & Placement Assessments completed; certificate issuance in progress)
- MERN Full Stack Developer — NextWave (CGPA: 10.00)
